# MEYER FROZEN FOODS MIX-BLEND SYSTEM

## For The Processing & Handling of Frozen Foods

Meyer Industries, Inc. is a leader in designing, engineering, and manufacturing food processing and material handling equipment. We are committed to continuous improvement in quality, customer satisfaction, cost and delivery while exceeding the customer's expectations at every level.

Meyer's experience with frozen mix blend systems and their specific handling problems is a culmination of years of proven solutions. Our extensive experience in this industry allows us to provide guidance on related issues. From a single piece of equipment to complete processing lines, Meyer provides innovative products and solutions to meet the needs of the frozen food industry.

### Solutions

- Complete mix blend lines
- Easy change metering valves
- Accurate portioning of product
- Rotary cluster-busters ensure uniform cluster separation
- Gravimetric metering offers more precise blend control
- Optional Sealed Dumper eliminates debris from product stream
